

WE CAN'T MANUFACTURE THESE NUMBERS

WHY THE MANUFACTURING INDUSTRY NEEDS US

Managing IT today can feel like an uphill battle, especially if you work in manufacturing. From staying current on regulations to managing patches, it's a lot for one team to manage.

Cyber Risks Top Worldwide Business Concerns in 2023

\$51B The amount of money lost to compromised business emails

\$7B The cost of cybercrime for U.S businesses

93% The percentage of company networks cybercriminals can penetrate.

83% Of small and medium-sized businesses not prepared to recover from the financial damages of a cyberattack

90% of manufacturers are also ill prepared with poor network perimeters.

A TARGETED INDUSTRY

Attacks in the manufacturing industry increased by 53%

Manufacturing was the top industry affected by ransomware in 2023

The average cost of a data breach in 2023

\$4.45M

WHY DO THEY GO AFTER YOU?

1. Valuable Data
2. Complex Supply Chain That Involves Multiple Parties
3. Increased Digitization
4. Lack of Cybersecurity
5. Financial Gain

A BIG BURDEN FOR SMALL BUSINESS

42% of companies are experiencing **cyber fatigue** or a sense of apathy toward proactively defending against digital attacks.

43% of all data breaches involve **small and medium-sized businesses**

Only **14%** of small businesses are prepared to defend themselves against a cyber attack

54% say **cyberattacks** are too advanced for their IT team to handle on their own
